

Team Members and Contributions:

1. Saad BELAOUAD

- **Contributions:**

- Designed and fine-tuned the recommendation model using SVD.
- Analyzed the model's performance and optimized it for better accuracy.
- Actively participated in writing the project report and attended all team meetings to ensure project alignment.

2. Anouar ZAHRAJ

- **Contributions:**

- Managed data collection and preprocessing.
- Conducted exploratory data analysis to understand user preferences.
- Contributed to the composition of the project report and consistently attended team meetings for collaborative planning.

3. Adnan EL MOUTTAKI

- **Contributions:**

- Managed the deployment process of the application on Streamlit Sharing.
- Managed the integration of supplementary algorithms to enhance the main recommendation engine.
- Involved in report writing and regularly attended team meetings to contribute to the strategic direction of the project.

4. Amine IDELHAJ

- **Contributions:**

- Developed the Streamlit application for the recommendation system.
- Conducted extensive testing of the application to ensure functionality.
- Involved in report writing and regularly attended team meetings to contribute to the strategic direction of the project.
